

SOVATZOGLU & CO
MECHANICAL ENGINEERING & CONTRACTING

Company Profile 2019

Who we are & what we do

SOVATZOGLOU & CO specializes in industrial, food & pharmaceutical facilities, High Purity steam and water piping, stainless steel food grade jacketed tubing, industrial steam piping, high pressure fuel and gas piping & compressed air piping systems. We also fabricate conventional mechanical installations: HVAC, Fire Protection systems such as sprinkler, hose reels, deluge, foam, inergen and FM200 systems & Plumbing & Sanitary systems.

Since 2016, in order to accomplish precision welding in high purity industries (pharmaceutical, food grade and industrial stainless steel piping) our company uses portable high performance orbital welding power sources with closed chamber welding heads, for autogenous welding of tubes without filler wire.

SOVATZOGLOU & CO has established a Quality Management System certified by Swiss Approval International in accordance with the requirements of the International Standard EN ISO 9001: 2015 with scope: "CONSTRUCTION OF HYDRAULIC AND ELECTROMECHANICAL PROJECTS IN SHIPS, BUILDINGS & INDUSTRIES", which applies to all company procedures.

Our company, as well as our welders and brazers, are certified for welding in Cu, CS & SS (Copper, Carbon Steel & Stainless Steel) piping of any diameter.

Pharmaceutical Industry

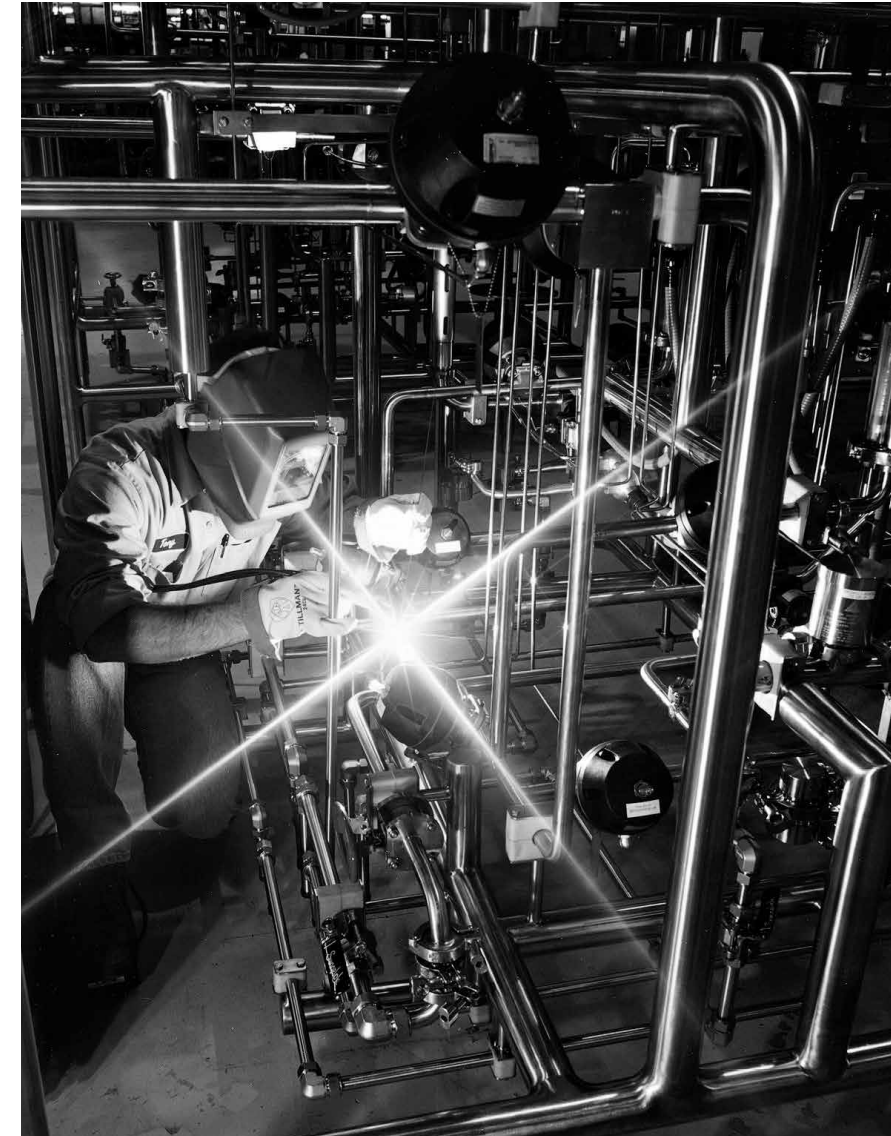

Athens, Greece

Repairs, modifications, extensions and upgrades to the existing pharmaceutical and mechanical installations, spanning over 40,000m² in all three company's facilities at Athens, Greece.

Expertise

Providing innovative solutions
that create a competitive edge

PET Plant

Thessaly, Central Greece

Conservation and restoration of a PolyEthylene Terephthalate (PET) Granule & Preform Plant with 15.000 m² indoor area in 75.000 m² industrial plant at Thessaly, Central Greece. Industrial Steam piping, Compressed Air, Fire Protection, Plumbing & Sanitary systems.

Responsibility

We are committed to our word and deliver
on our promises.
Detail and safety are our highest priorities.

Refinery upgrade

Athens, Greece

More than 2.000 meters of Compressed Air piping, throughout the length of the pipe-rack, keeping in strict adherence to the construction time schedule and the rigorous manufacturing standards of the employer's oil company.

Corinth, Greece

Production of medium pressure nitrogen by cryogenic air separation. Welded stainless steel piping AISI 304L 3.1, according to EN 10204, SCH10S. NDT Radiography testing of all welds, Third Party Inspection (TPI) – Hydraulic testing and certification.

Experience

We strive to deliver
above and beyond
at all times

High pressure gas lines

Across Greece

High Pressure industrial and specialty gas lines for, Hospitals, Laboratories & Analysis, Waste Treatment, Pharmaceutical, Food & Beverage Industry, Metallurgy & Siderurgy, Chemical Industries, Oil & Gas.
On site construction of gas lines (N2 NO, H2, O, RO, N5o, He, C2H2, Argon, etc.)
Maintenance – Reconstruction of gas storage tanks and gas tank vehicles.

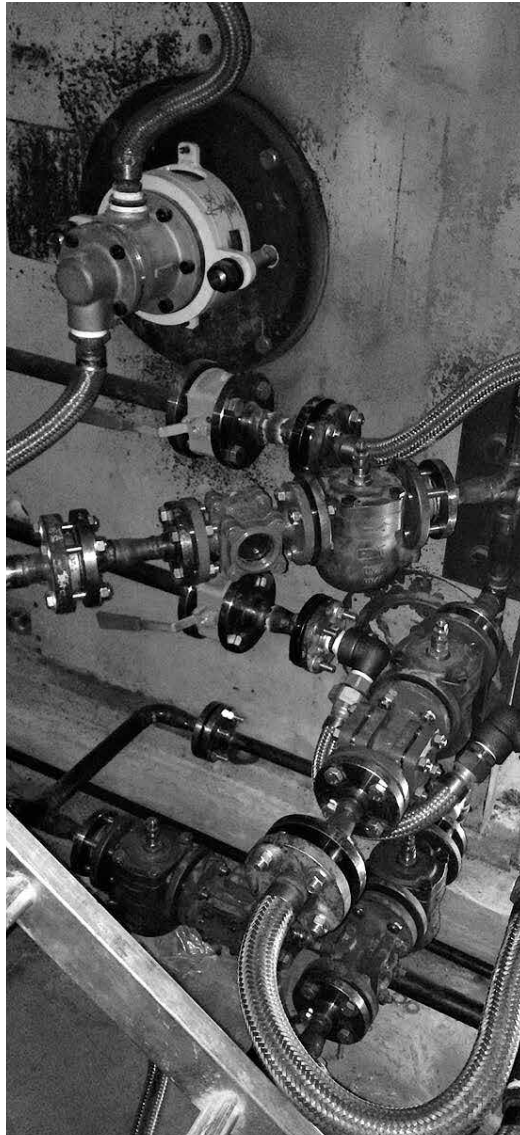

Paper packaging industry

Central Greece

New Industrial Steam piping installation at 16 bar working pressure, Natural Gas piping. Compressed Air system, Glue piping and Fire Protection system installation for the factory's expansion.

Extending and upgrading the existing fire protection system installation, spanning over 10,000m² in the company's original facilities.

Steam Power Generation at Paper Packaging industry

Komotini, North Greece

Installing a power generator that utilizes saturated process steam and generates low-cost electricity for use at the factory, or for selling back to the electric grid. Industrial Steam piping installation.

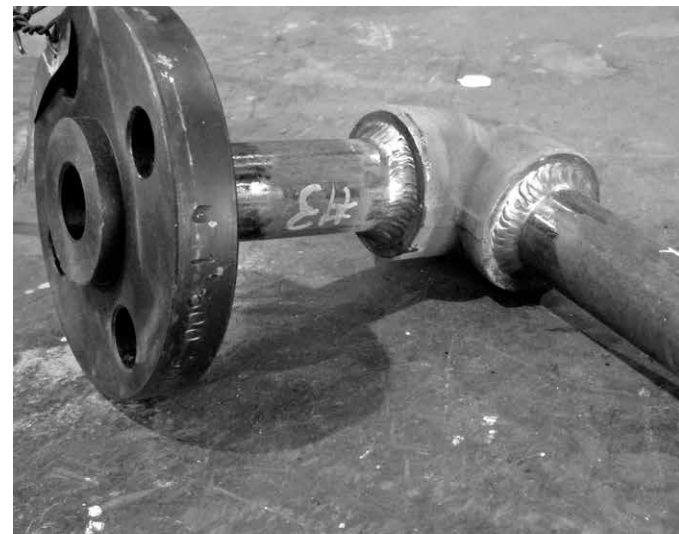

Pharmaceutical Industry

Athens, Greece

Construction of the pharmaceutical and mechanical installations at the extension of the company's facilities.

High purity installations of: Pure Water, Water for Injection, Clean Steam, Compressed Air, N₂, O and Vacuum (orbital welding with closed chamber welding head according to ASME BPE).

Installation of Industrial Steam, LPG, Plumbing & Sanitary works.

Pharmaceutical Industry

Avlonas, Attica, Greece

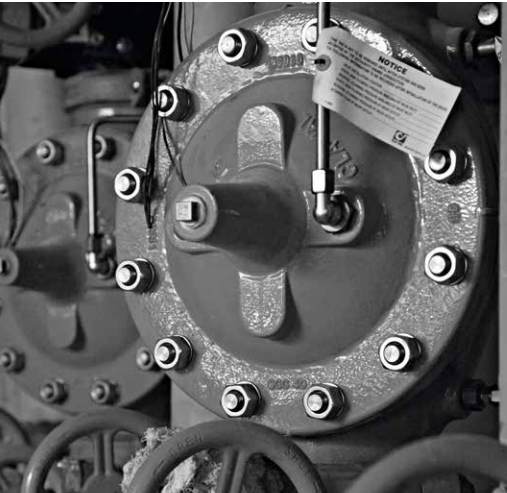

Construction of additional Clean Room facilities at the pharmaceutical company's plant.

High purity installations of: Pure Water, Clean Steam, N₂, O and Vacuum (orbital welding with closed chamber welding head according to ASME BPE).

Installation of new Chiller and AHU's, Industrial Steam, Compressed Air, Plumbing & Sanitary works. Redesign and replacement of existing central HVAC piping system.

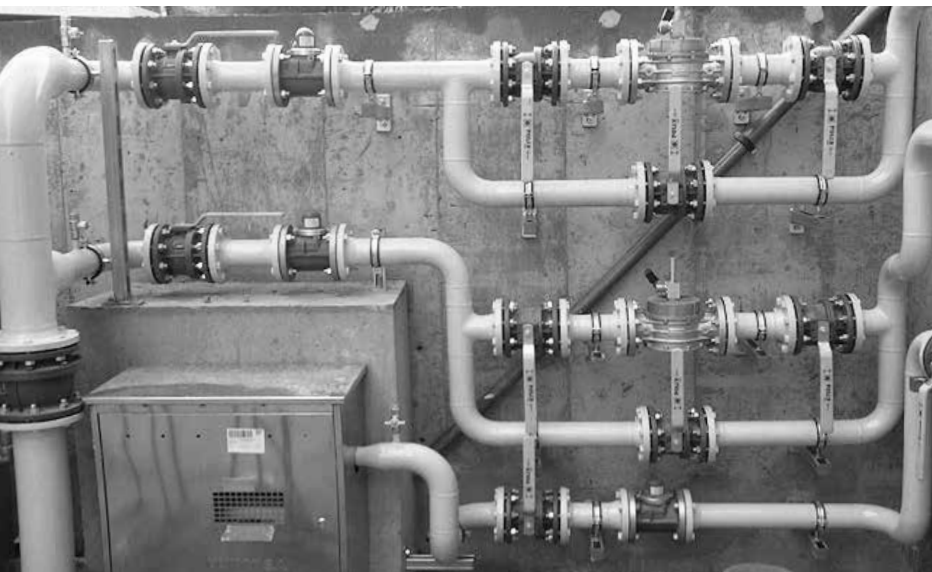

Highest Quality

We strive for continuous quality improvement
in all that we do

Results Oriented

Our goal is to anticipate customer needs
and respond proactively and efficiently, exceeding
your expectations

Onassis Cultural Centre

Athens, Greece

Supervision of the construction of the 18.000m²
of interior floor, spread over no less than 16 levels,
including 3 stages, exhibition hall, restaurant-bar-café,
and 4 levels of underground car-parking areas.

Soft drink & juice bottling company

Shimatari, Greece

Repairs, modifications, extensions and upgrades
to the existing mechanical installations of CIP piping,
Industrial Steam, HVAC piping system.

TIG welded stainless steel piping and air receiver
for Compressed Air according to EN 10357 – For food,
beverage and chemical industry.

Food industry

Athens, Greece

Complete replacement of existing cream and chocolate piping with tig welded stainless steel water jacketed tubes according to EN 10357 – For food, beverage and chemical industry. Repairs, modifications, extensions and upgrades to the existing mechanical installations of the production area.

Innovation & Embracing Change

Continuous improvement, research of new materials, processes & modes of labour

Dairy industry

Athens, Greece

Repairs, modifications, extensions and upgrades to the existing mechanical installations of Industrial Steam, HVAC, Compressed Air piping system. Air-conditioning process for high speed Cooling Tunnels at Yogurt Production.

SOVATZOGLOU & CO is a versatile company. We employ experienced, qualified site supervisors, who along with independent groups of licensed technicians, welders, pipe fitters, and site assistants, cover the entire spectrum of our works, ranging from small parallel expeditious contract works, to large long-term projects.

We have covered storage areas, such as pre fabrication and finishing areas. We provide high-quality services with personal assistance through our 24/7 service for all our customers.

Customer service

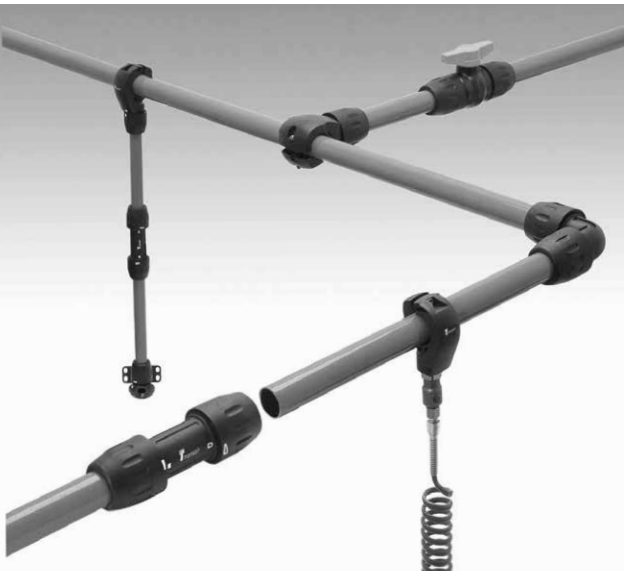

Technical support services daily on a 24 hour basis throughout the year

Construction of complex projects & infrastructures. Special constructions/ Repairs & Maintenance

Across Greece

Supervision, preventative maintenance and damage repair with 24-hour technical support either directly to our Customers or through the largest Facilities Management Companies.

Food industry

Thiva, Central Greece

Repairs, modifications, extensions and upgrades to the existing mechanical installations of Industrial Steam, Superheated water, Softened water, Vacuum, Compressed Air system constructed of Aluminum Pipe, fittings and valves and TIG welded stainless steel piping.

Brewery Microbrewery Brewpub

Brewing up new Process Piping Solutions. Orbital welding. Carbon, stainless, and alloy pipe fabrication and installation. Steam, chemical, and gas process piping fabrication. De-aerated water, HVAC piping, Refrigeration, Compressed air. Emergency on-site repair.

Excellence

To provide the highest quality
in everything we do

Food industry

Athens, Greece

Total replacement of existing Compressed Air piping spread on all 6 levels of the factory facilities, with new Aluminum piping, fittings and valves.

Redesign and replacement of existing central Compressed Air piping system.

Upgrades to the existing cream and chocolate piping with tig welded stainless steel water jacketed tubes according to EN 10357 – For food, beverage and chemical industry.

Consumer Goods

Athens, Greece

Upgrades to the existing mechanical installations of Industrial Steam, Vacuum, Exhaust Air, Tetrachlorethylene and Compressed Air piping.

Credibility
Creating and maintaining long-term,
strong partnerships

Passengers Ship

Elefsis Shipyards, Greece

Complete replacement of existing Steam piping on all 5 AC Rooms of the ship, with welded carbon steel piping API 5L (A106) GR.B ANSI B36.10 SCH40 (STD).

Olive Oil Core Plant

Peloponnese, Greece

Repairs, modifications, extensions and upgrades to the existing mechanical installations of Industrial Steam, Oil piping, Cogeneration, Heat Recovery, Compressed Air, Fire Fighting.

Consistency

Strict compliance to the specifications.
Branded, high quality materials only.

Fruit Packaging Plant

Tirana, Albania

Industrial refrigeration – Fabrication of TIG welded stainless steel piping (Inert gas 100% Argon) for industrial refrigeration (glykol) diameter from 1/2 to 8 inches.

Energy Awareness Park

Doha, Qatar

Domestic Hot Water (DHW) production through solar panels.

Leading International Tobacco company

Attica, Greece

Assembly and installation of two new tobacco processing lines and ten new production lines of heated tobacco rods.

Bunkering Station

South Crete, Greece

Installation of new biomass steam boiler. Upgrade and replacement of the existing industrial steam piping for preheating fuel oil tanks.

Leading LPG company

Attica, Greece

Fabrication and installation of TIG welded carbon steel LPG piping at the production facility area.

Modifications and upgrades to the existing LPG piping at company's LPG tanker trucks.

NDT Radiography testing of all welds, Third Party Inspection (TPI) – Hydraulic testing and certification.

High Safety & Quality
Standards
Safety is our highest priority

Fabric Dyeing Machines Plant

Schimatari, Central Greece

Installation of approximately 1.500 meters of TIG welded stainless steel 316L piping according to EN 10357 – For food, beverage and chemical industry.
Orbital welding with closed chamber welding head.

People Development

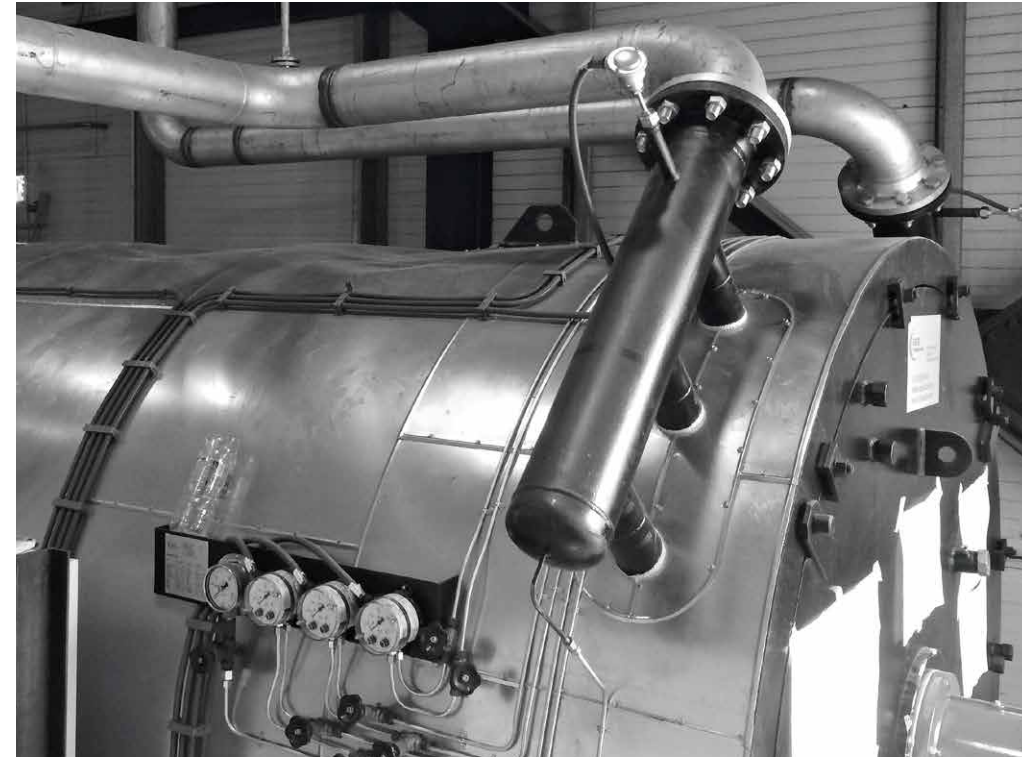

We respect, develop and invest
in our employees

Food industry

Atalanti, Central Greece

Complete replacement of the thermal oil piping system with tig welded stainless steel tubes.
Replacement of the central thermal oil LPG boiler, pumps, expansions & sump tank.
Repairs, modifications and upgrades to the existing mechanical installations of the production facility area.

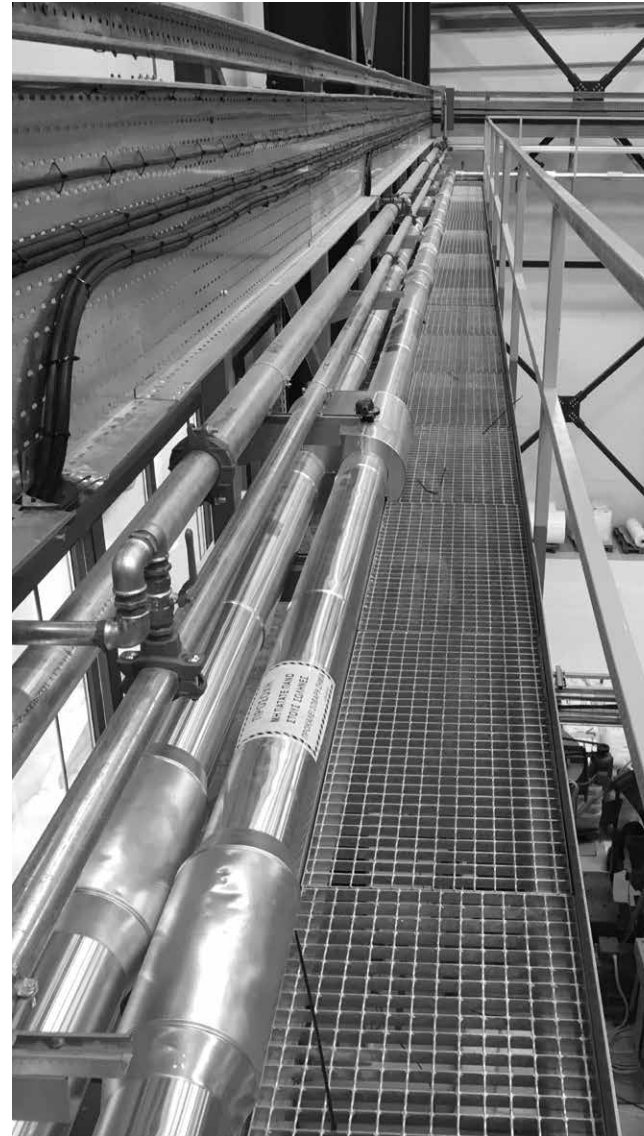

Flexible Packaging Plastic Materials Industry

Schimatari, Central Greece

Construction of the mechanical installations at the extension of the company's facilities.
Installation of new Chiller and AHU's, Compressed Air, Exhaust Air, Plumbing & Sanitary works.

Leading International Food industry

Shimatari, Central Greece

Redesign and replacement of existing central steam and heating piping system.

DHW through solar panels & 10.000lit Buffer. Air transportation networks for flour & sugar.

Repairs, modifications and upgrades to the existing mechanical installations of the production facility area.

Integrity and honesty

Conducting business honestly and openly, adhering to the highest ethical standards
